Last year we helped you detect  
Aliens....

This year we will do more to  
readdress the alternative future

the advancement of technology  
means we have ben robbed of the  
cyberpunk future we were  
promised by movies and games

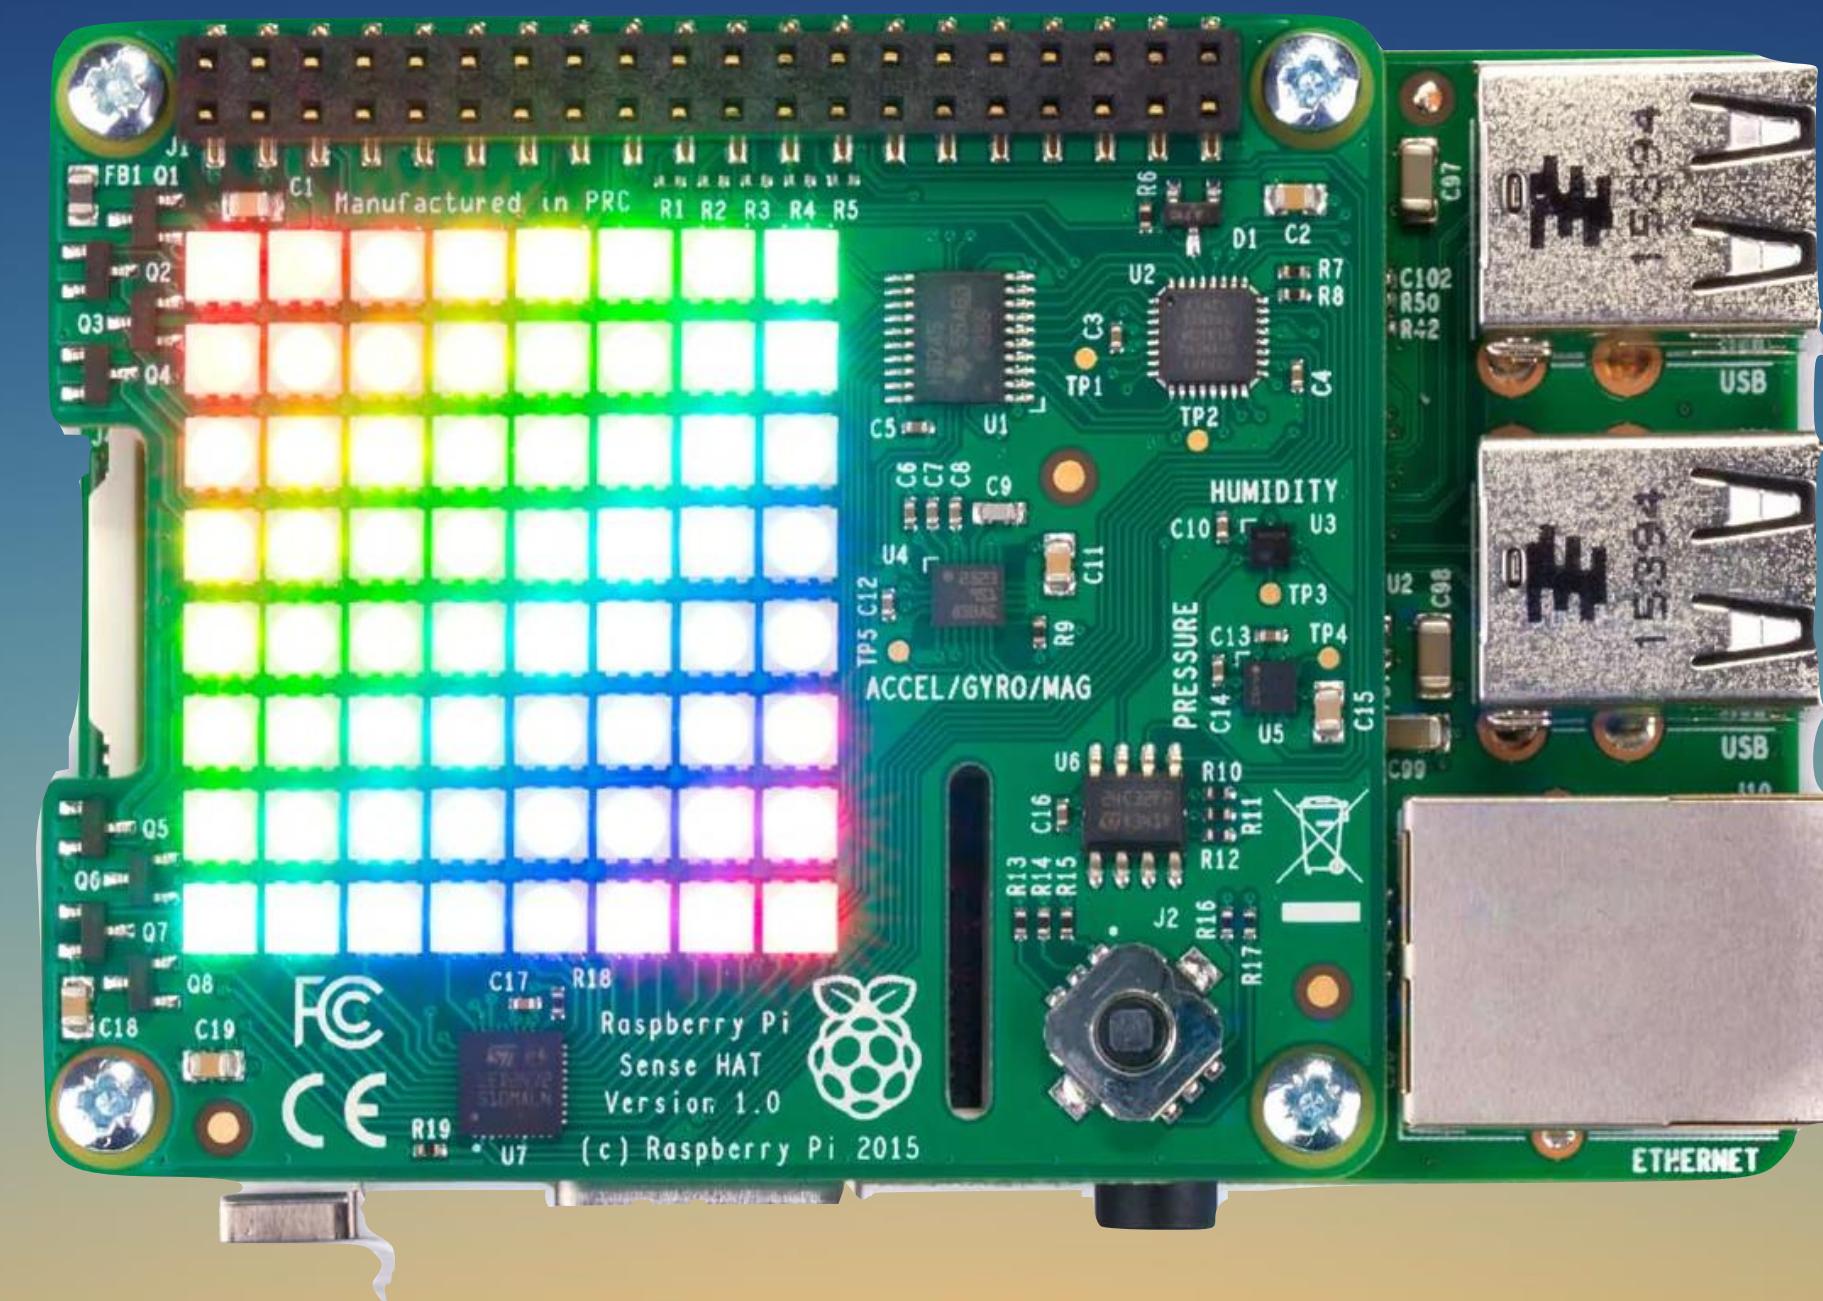

# 100% True

Current display  
technologies are simply  
not as cool as their 80s  
counterparts.

# Project 1 - What?

## Super Dot Matrix Display

We want a team to turn 30ish raspberry Pi led displays in to one massive display.

DATA CORP

# It is also true

Current sports are boring.

- I was promised a lot more by  
80's games & movies

# Robot Football

## Make sport great again

We have two Nao Robots and would like two teams to develop them into the sports men of the future.

They could even play each other.

**We will put up stuff to  
help you get started.**
